## VACANCY FOR SENIOR IT TECHNICIAN

12<sup>th</sup> September 2011

**We are** an ambitious, quality-driven, friendly , IT services company. We have a healthy mix of business and consumer clients and wish to grow our commercial footprint in both.

**You are** a Senior IT Technician with strong analytical and communication skills, with the ability to respond professionally and effectively to customer requests. You will have expert knowledge of the maintenance principles of network servers and backup systems. You will monitor operations and systems, resolve configuration and connectivity issues (and other security and access problems), as well as develop and complete project work to a high standard.

**You are by inclination** professional, self-motivated and ambitious. You need to be a self-starter, working to a consistently high standard, and are highly disciplined and organised. You have strong standard of personal presentation, as well being numerate, articulate and with strong interpersonal skills. You have an interest in business and understand, or want to learn about, how commercial decisions are made.

**Your commitment** to grow the business, together with the excellent business relationships you make with clients, will enable you to work with them to future proof their IT needs.

This is a challenging role, at a challenging time for the Global economy but we are committed to growth.

Full driving licence **ESSENTIAL**.

Please state salary expectations and send CV and covering letter to [melanie@haslemere.com](mailto:melanie@haslemere.com)
